Dear Caroline,
I am so appreciative of having had the ability of making your acquaintance throughout recruitment. But, I am eager to become friends throughout my membership in GCC. Lastly, I can't express my level of gratitude in your believing in me to offer me entrance into GCC!
Gratefully,

Dear Tyler,

We first met at the resume workshop this year. Since then, I have unfortunately been deprived of the opportunity of talking to you personally about your experiences. I eagerly await the opportunity to further our relationship and learn from you over these next few weeks.

Thanks,

Leo
