Dear Aaron,

I can't say how thankful I am for you making time to meet with me yesterday. Your advice and feedback have been greatly appreciated. I am already incorporating multiple recommended steps such as preparing my "tell me about yourself" prompt for Finance Scholars and updating my resume to be better prepared to walk it through with an interviewer. Lastly, I look forward to developing our professional relationship in the future!

Thank you,
Leo

mock interview there?

Hey would it be ok if we rescheduled for next week? I don't need to have the interview completed for a few weeks and there is no hurry.

Tue, Oct 31 at 8:57 AM

Good morning Leo, are we still good to do the mock interview today?

Yep. 4:30

Were you able to book a study room? If not, totally okay we can do it in scana

No unfortunately, but scana will be fine

And email me a copy of your resume please!

Hi, I am sorry for the delayed message but I want to say thank you so much for your invaluable help and feedback the other day. I have already started making a google doc with scripts that walk through my resume and application statement for finance scholars.
