Hiring Committee
The Depository Trust & Clearing Corporation (DTCC)
EDGE Analyst Program – Financial Risk & Governance
Tampa, FL

Dear Hiring Committee,

I am seeking a role in the EDGE Analyst Program within Financial Risk & Governance at DTCC. I am a senior at the Darla Moore School of Business at the University of South Carolina, majoring in Finance and Risk Management with a 3.9 GPA. My academic and professional background has prepared me to think critically about risk, manage data-driven projects, and operate effectively in fast-paced financial environments that value precision and accountability.

My work through the Carolina Finance Scholars Program, a highly competitive faculty led cohort, where I gain access to specialized case-based finance sections, taught me how to analyze cash flows, risk, and valuation in Excel. My academic coursework, prepared me for my past summer internship in Capital Markets at BNP Paribas, rotating between Macro and Equity business lines. I spent most of my time on the Structured Notes desk, where I helped build and present a defined-volatility note and later worked with the FX team on a macro pitch based on my long JPY/USD view. These experiences sharpened my ability to understand different types of risk, work with multiple data points, and communicate clear takeaways enabling me to contribute meaningfully to DTCC's Liquidity Risk & Stress Testing team.

My time in Capital Markets and the long, demanding hours of the Carolina Finance Scholars Program reminded me how much the environment matters. I've learned that I do my best work when I enjoy the people around me, can ask questions freely, and feel supported while being pushed to grow. Those are the settings where I stay engaged, take ownership, and contribute at a high level.

Thank you for your time and consideration. I look forward to the opportunity to discuss how I can contribute to DTCC's mission of maintaining market integrity and mitigating systemic risk.

Sincerely,
Leo Goldberg
