The Depository Trust & Clearing Corporation (DTCC)
EDGE Analyst Program – Financial Risk & Governance
Tampa, FL

Dear Hiring Committee,

I am applying to the EDGE Analyst Program in Financial Risk & Governance at DTCC. I am a senior at the Darla Moore School of Business, majoring in Finance and Risk Management with a 3.9 GPA. Through my academic work and professional experience, I've developed a strong foundation in risk thinking, data analysis, and delivering clear conclusions in fast-paced environments that value accuracy.

My experience in the Carolina Finance Scholars Program strengthened my ability to evaluate cash flows, risk, and valuation using Excel and structured case work. This prepared me well for my internship in Capital Markets at BNP Paribas, where I rotated between Macro and Equity business lines. I spent most of my time on the Structured Notes desk, helping build and present a defined-volatility note, and later worked with the FX team on a macro pitch tied to my JPY/USD view. These experiences taught me how to interpret different types of risk, manage moving pieces, and communicate takeaways clearly—skills I believe translate well to DTCC's Liquidity Risk & Stress Testing work.

I've also learned that I perform my best around teams who encourage curiosity, communicate openly, and support each other while still expecting high performance. That kind of environment keeps me engaged, accountable, and motivated to contribute at a high level.

Thank you for your time and consideration. I look forward to the opportunity to discuss how I can contribute to DTCC's mission of maintaining market integrity and mitigating systemic risk.

Sincerely,
Leo Goldberg
