Dear J.P. Morgan,

Thank you for considering me for the Capital & Advisory Solutions Track within the 2025 Commercial Banking & MMBSI Summer Analyst program.

My name is Leo Goldberg. I'm from Queens, New York and I am a sophomore at the University of South Carolina Darla Moore School of Business with a 3.9 GPA. I am pursuing a double major in Finance and Risk Management with Sustainability in Business concentration. I chose the Darla Moore School of Business for the incredible opportunities offered by both students and faculty.

To this end, I joined the Carolina Fund Club during my freshman year and have since been promoted to the Group Head for the Real Estate sector. In the Carolina Fund Club, teams compete by submitting long or short investment strategies that include a combination of qualitative and quantitative characteristics to support them. As the Real Estate Group Head in the Carolina Fund Club, I've led a team that researches a firm's qualitative idiosyncratic and macroeconomic conditions to create assumptions required for quantitative financial models such as Discounted Cash Flow Models or Comparable Companies Analyses. My extracurricular involvements have vastly increased my proficiency with Microsoft PowerPoint and Excel, and my continuous involvement in challenging group projects has taught me how to be a team player who values others' inputs while simultaneously contributing my own.

Whether it be through my participation in Carolina Fund, or any other endeavor, I constantly challenge myself to continue to improve my technical knowledge as well as my social ability to integrate into new organizations with the goal of contributing and improving them. My willingness to learn and my ability to work well with others will guarantee that no matter what team I am a part of, or what project I am assigned, I will always be a valuable and approachable teammate that helps contribute to the highest quality of work that J.P. Morgan is renowned for around the world.

My experience in financial modeling and Microsoft Suite, will enable me to make the most of the internship program experience. Whether it be learning from senior leader engagements, participating in charitable community events, or even making financial models and preparing marketing materials to help with client interactions.

J.P. Morgan's commitment to fostering innovation and leadership resonates deeply with my personal and professional aspirations. I am particularly inspired by the opportunity to work with other like-minded, and detail-oriented individuals that are determined to learn more about Commercial and Middle Marketing through the summer internship program and full time 2.5-year MMBSI Analyst Program.

I eagerly await the possibility of contributing to the J.P. Morgan team in 2025!

Sincerely,

Leo Goldberg
