Dear Raymond James,

Thank you for considering me for the 2025 Investment Banking Summer Analyst Position.

My name is Leo Goldberg and I moved to Pinellas Park, Florida from New York when I was a sophomore in high school. Four years later, I am now a sophomore at the University of South Carolina Darla Moore School of Business with a 3.9 GPA majoring in Finance and Risk Management with a Sustainability in Business Concentration. I chose the Darla Moore School of Business for the incredible opportunities offered by both students and faculty alike. From my first day in the business school, I aspired to join organizations that would help me grow professionally and personally.

To this end, I became the Group Head for the Real Estate sector of the Carolina Fund Club where members participate in stock-pitch competitions and learn the introductory concepts to stock valuation. This experience was crucial in preparing me for my school's highly selective Carolina Finance Scholar Program which aims to prepare admitted students for a top finance career through an advanced curriculum utilizing case-based coursework. Students in the program are assigned with weekly, rigorous group projects that help develop real world technical financial skills. By my completion of these projects, I have developed proficiencies in Excel and PowerPoint enabling me to create and present pro-forma income statements, balance sheets, statements of cash flows, DCF models, as well as other types of financial analyses and forecasts. My continuous involvement in challenging group projects has taught me how to be a team player that values others' inputs while simultaneously contributing my own.

Whether it be through my participation in the Carolina Finance Scholar Program, or any other endeavor, I constantly challenge myself to continue to improve my technical knowledge as well as my social ability to integrate into new organizations with the goal of contributing and improving them. My willingness to learn and my ability to work well with others will guarantee that no matter what team I am a part of, or what project I am assigned, I will be a valuable and approachable teammate that helps contribute to the highest quality of work that Raymond James has proudly exuded for over six decades.

I've had the privilege of speaking with analysts on the M&A Product Group as well as the Industrials Coverage Group. I learned about the many rewarding aspects of the Raymond James culture such as protected Saturdays and the high percentage of executive positions that were earned by employees who began as analysts like me. My already strong desire to be a part of the Raymond James Team increased even further with my knowing that if I were awarded an internship opportunity, I would be part of a team that prioritizes fostering an environment that not only facilitates professional growth and excellence, but health and balance as well.

I would be honored to be on your team and have the opportunity to begin my finance career in the 2025 Investment Banking Summer Analyst Program.

Sincerely,

Leo Goldberg
