Hiring Committee

KKR | Global Atlantic Financial Group

2026 Analyst, Institutional Markets Program

New York, NY

Dear Hiring Committee,

I am a senior at the Darla Moore School of Business at the University of South Carolina, majoring in Finance and Risk Management with a 3.9 GPA. I recently completed a Capital Markets summer analyst internship at BNP Paribas, where I rotated between Macro and Equity business lines and gained hands-on exposure to structured notes, FX, and rates. The experience strengthened my interest in applying analytical skills to create financial solutions and work directly with institutional clients.

On the Structured Notes desk, I helped design and pitch a defined volatility index-linked autocallable note, building performance simulations and creating client materials explaining payoff mechanics. I also worked on the FX Desk, preparing a macro pitch presenting my long JPY/USD view supported by rate differentials and economic releases. These experiences strengthened my ability to analyze market moves, assess risk, and communicate outcomes to clients — skills directly relevant to responsibilities within the Institutional Markets Commercial Team, including negotiation, origination, investment recommendations, and cross-team collaboration.

I'm drawn to Global Atlantic's Institutional Markets Analyst Program because it emphasizes analytical rigor, communication, and creative problem-solving. I am particularly interested in the opportunity to learn from experienced professionals, strengthen my financial modeling skills, and contribute to the diverse culture Global Atlantic prides itself on. These principles align closely with how I approach my own development and professional growth.

Thank you for your consideration. I would welcome the opportunity to discuss how my background and experiences align with the Institutional Markets Program.

Sincerely,

Leo Goldberg
