We create possibilities that move life and commerce forward

Welcome to Manhattan. Every day, our supply chain commerce technology connects two billion people to 20 billion consumer choices. In the warehouse, on the road and in the store, we make what was once impossible, possible. If you want to tackle complex problems and redefine markets, you've come to the right place.

As a Services Consultant, you will have the unique opportunity to combine your technical aptitude, business and supply chain knowledge, and desire for face-to-face client contact in an exciting, software consulting career working directly with our clients, who are some of the country's leading manufacturers, retailers, and distributors.

Our consultants are our customer's primary point of contact throughout the implementation of one or more of our supply chain solution software packages, including state-of-the-art warehouse management systems, transportation management systems, RFID, reverse logistics, and labor management systems.

Travel will be up to 50-75%

As a consultant, you will:

- Serve as the liaison between our clients and our software product development team, supporting the implementation of our products and ensuring client satisfaction for our customers across a broad range of industries, including consumer goods, food, government, high-tech/electronics, industrial/wholesale, life sciences, logistics service providers and retail
- Understand the client's business requirements, matching them to our software's functionality
- Configure Manhattan Associates software to meet the client's business requirements
- Develop and execute test cases for software modifications
- Manage client relations by providing business and systems expertise
- Work on small project teams made up of other Consultants and supply chain software professionals
