Santander
Corporate Banking Relationship Manager – Analyst
New York, NY

Dear Hiring Committee,

I am applying for the Corporate Banking Relationship Manager Analyst role at Santander. I am a senior at the Darla Moore School of Business at the University of South Carolina, majoring in Finance and Risk Management with a 3.9 GPA. Through my academic work and professional experience, I have developed a strong foundation in credit analysis, client communication, and delivering clear insights in fast-paced environments.

As a member of the Carolina Finance Scholars Program, a selective academic cohort of 32 students, I completed specialized finance coursework focused on case-based projects designed to mirror real-world decision-making. This experience strengthened my ability to analyze financial statements, assess risk, and evaluate business performance using Excel. That foundation was reinforced during my internship at BNP Paribas, where I completed a rotational program across Macro and Equity business lines, analyzing structured note payoffs, market drivers, and downside risk, and clearly communicating conclusions to sales and structuring teams.

Additionally, during my internship at Forte Capital Group, I supported client outreach by preparing suitability-focused materials and developing meeting presentations for high-net-worth clients. This role emphasized translating portfolio information into clear, client-ready insights and reinforced my interest in relationship-driven roles that combine analytical rigor with direct client engagement.

Thank you for your time and consideration. I would welcome the opportunity to discuss my interest in Santander and how I could contribute to the Corporate Banking team.

Sincerely,
Leo Goldberg
